Brief description

Tech Mahindra Ltd. (TechM) formerly Mahindra British Telecom (MBT) is an Information Technology service provider company headquartered in Pune, India. It is a joint venture between the Mahindra Group and BT Group plc, UK with M&M (Mahindra and Mahindra) holding 44% and BT holding 39% of the equity. Tech Mahindra has its headquarters at Pune, India. Tech Mahindra has grown rapidly to become the 5th largest software exporter in India (Nasscom, 2009) and 1st largest Telecom Software Provider in India (Voice & Data, 2009).

Scope of Work

The roof area of the Tech Mahindra building in Pune was waterproofed by Remmers PU based waterproofing system. Also the flooring of the kitchen area, which has been constructed for a seating capacity of 3000 people, was completed by Remmers Epoxy Flooring system using Remmers Epoxy BS 2000/Epoxy BS 3000 and PUR Top M Plus system.

For all the exposed steel structures in the building,

Product systems used / Size

Water vapour permeable flooring:

Waterproofing: Façade Protection: Speciality Products:

Remmers All Primer was used. Since natural stone is extensively used in the outer façade of the building, the façade was coated over by Remmers Funcosil SNL for water repellency and protection. The areas where joints were open, sealing of joints by Remmers Pourable 2K was done.
